

# Measurement Scavenger Hunt

What classroom objects to fit the given measurements can you find?

Hunt for...	What we found
A book that weighs more than 2 pounds	
A pencil between 3 and 4 inches long	
Something with a perimeter of about 30 inches	
Two objects that are about 4 meters apart	
A container that holds more than a quart but less than a gallon	
Something with an area of about 25 square inches	
A student taller than 150 centimeters	
Something that weighs about $\frac{1}{2}$ a pound (8 oz.)	
A pencil between 1.4 and 1.6 decimeters	
Something with a perimeter between 90 and 110 centimeters	
A non-digital watch	
Something that weighs about 5 grams	
Two objects that are about 5 feet apart	
Something that would hold about a pint of water
