

Create a "Wanted" poster for one of the "culprits" below:

- 1) a right scalene triangle
- 2) a rhombus
- 3) a trapezoid
- 4) an obtuse isosceles triangle
- 5) a regular pentagon

Use construction paper, crayons or markers, and any other useful materials to make an eye-catching poster. Your poster should include a picture and a detailed geometric description of your shape, so that your friends can help you "catch" the culprit.
