

Spinning More or Less

6	2	0	3
1	3	4	5
7	0	2	1
5	4	6	7

Directions: The spinner is made by placing the paper clip over the center of the circle and putting the point of the pencil inside the paperclip, directly on the center of the circle.

1. Play with a partner
2. Roll the number cube to get a starting number.
3. Spin the spinner to get a direction.
4. Cover a number that fits the spinner's direction.
5. If the spinner lands on *more* or *less* the player may choose any number that fits that direction.
6. Lose a turn if a number cannot be covered.
7. Win by getting three counters in a row, horizontally, vertically or diagonally.
