

# Digit Order

Materials: one set of number cards (0-9)  
Digit Order Recording Sheet

1. Each player needs one set of number cards (0-9).
2. Randomly mix the two sets of cards.
3. Each player will need one recording sheet.
4. The first player draws a card and records the number on the recording sheet.
5. Once a number has been placed you cannot move it to another place.
6. The next player follows the same steps.
7. Continue taking turns, drawing a card, and recording the number until both players have recorded all 10 numbers.
8. Players compare their recording sheets to see which person formed the most numbers that worked.
9. For round two, the players return all the numbers to the container and repeat the steps.

# Digit Order Gameboard
