

Estimating Hundreds

Players:

2 or 3

Materials:

Deck of 3 and 4 digit number cards

Players 2 or 4 (Partners, teams of 2)

Recording Sheet per player or team

Directions:

1. Place the deck of cards face down within reach of all players.
2. Devise a way to decide who draws first.
3. Player 1 draws 2 cards and records the cards as 2 addends on the recording sheet.
4. Player 1 determines the number of hundreds in the sum or total.
5. Player 1 records the number of hundreds on the recording sheet.
6. Player 2 draws 2 cards, records the addends, determines the number of hundreds in the sum and records the number of hundreds.
7. Continue for 8 turns. If you run out of cards, return cards to the deck.
8. Mix up the cards and continue the game.
9. Winner: The player with the most hundreds at the end of the game

Variations:

- Estimating Thousands (Play with cards with 4 and 5 digit numbers.)
