

Backpack Weight

- Estimate the weight of a typical backpack in pounds.
- Fill one person's backpack with the things that typically are carried each day.
- Weigh the backpack and record the data.
- Try to fill the backpack so that it weighs 2 pounds, then 5 pounds.

BACK PACK WEIGH IN 2

Record the items your group used to make a typical backpack and record the weight in pounds. Then determine its weight in ounces.

Group	Weight in Pounds	Weight in Ounces
