

# Inch Estimate

- Write your name so it is 4 inches long.
- Estimate the length of your arm and shoe in inches.
- Now estimate the height of the teacher's desk and the door in inches.
- Check to see how close you were.

# How Long Is an Index Card?

- Read the directions and check the model.
- Record estimates of how long you think your finished strip will be on the chart.
  - Using the card provided, start at a bottom corner, cutting a narrow strip up. When you get close to the top, turn and continue cutting across. When you get close to the edge, turn again. Continue until you cannot cut any more. Record actual results.
