

# Bone-A-Part

## Bone-A-Part

- Choose a piece of the dog bone and place it face up in front of you
- Roll the die and match the number on the die to one of the bone pieces
- If the number rolled comes just before or just after a piece already played, the player may add that piece to their dog bone.
- If the player cannot add a piece to their dog bone or if they roll the number of a piece already played, they lose a turn.
